

Interlapse Acquires “BuyBitcoinCanada” to Become a Leading Canadian Virtual Currency Platform

Press Release — March 31, 2020

Interlapse Technologies Corp. (TSXV: [INLA](#) / OTCQB: [INLAF](#)), the owner and operator of [coincurve.com](#), announces the acquisition of [BuyBitcoinCanada.com](#), a virtual currency brokerage platform from Canadian blockchain company, Bitaccess Inc., in exchange for 233,333 shares of the Company.

Simultaneously with the closing of the acquisition, BuyBitcoinCanada’s customers will be immediately incorporated into the Coincurve platform, creating Canada’s leading, non-custodial, virtual currency platform.

This highly complementary acquisition, which integrates seamlessly with Coincurve, broadens the Company’s growth profile and digital asset footprint. Furthermore, this acquisition places Interlapse into a stronger position to capture market share at a time when virtual currency adoption is accelerating globally.

“This is the first step in our non-organic growth strategy to become the preeminent virtual currency platform in Canada and eventually, globally.” commented Wayne Chen, CEO of Interlapse Technologies Corp. “Today’s announcement advances our consolidation efforts, which benefits Interlapse and supports virtual currency adoption.”

Founded in 2016 by Bitaccess Inc., BuyBitcoinCanada.com was the first merchant to integrate Flexepin into their brokerage platform and additional services such as EFT (Electronic Funds Transfer), making it easier for Canadians to buy and sell virtual currency.

“We are very pleased to complete this agreement with Interlapse.”
Remarked Phillip McKenna, Head of Growth for Bitaccess. “This acquisition represents an opportunity for Canada's virtual currency market to move towards greater market sophistication, and as a listed Canadian company, we’re confident Interlapse is well-positioned to serve our users whilst continuing their growth of BuyBitcoinCanada’s existing customer base.”
